

# The Compass for Net Zero: Navigating Ambition, Justice and Development

The 5th International Stakeholder workshop, taking place in parallel to the Bonn Climate Negotiations (SB62), will draw on the latest [ELEVATE](#) and [COMMITTED](#) project findings to evaluate the interplay of ambition and justice-focused approaches in shaping robust 2035 NDCs. The event will further explore how to capture and reflect different fairness considerations in mitigation pathways, turning these insights into practical policy solutions to advance the Net-Zero transition.

June 20th 2025

10:30-16:00
